Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Drawings

1. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 21 of page 4, line 26. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The disclosure is objected to because of the following informalities: on page 4, line 6 "FIG. 1" should be -FIG. 2- and on page 4, line 8, "FIG. 1" should be -FIG 3-.

Appropriate correction is required.

Claim Objections

3. Claims 3, 7 and 10 are objected to because of the following informalities: in claims 3, 7 and 10 "said downrigger base-mounting plate" should be "said downrigger base-mounting member". Appropriate correction is required.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Glebe.

Glebe discloses a downrigger adaptor assembly employable on water vessels and comprising

a seat-mounting member comprising

a substantially rectangular frame 62 having planar top and bottom

surfaces and a plurality of apertures passing therethrough at predetermined positions (see column 6, lines 10 and 11), and

an elongated support post 74 having opposed end portions secured to

said frame and removably engageable with a select portion of a boat seat so

that said seat-mounting member can be rotated in select radial paths;

a mounting plate 26 secured to said seat-mounting member and being disposed

thereabove, said mounting plate having a substantially rectangular shape and

further having a plurality of apertures 26a formed therein for receiving a plurality of fastening members 94 passing upwardly from said frame, and

a downrigger base-mounting member (clearly shown in figure 2) secured to said mounting plate and

extending upwardly therefrom for receiving at least one fishing accessory.

With regard to "removably engageable with a select portion of a boat seat so that said seat-mounting member can be rotated in select radial paths", this is an intended use of the support post and so long as the support post 74 of Glebe can removably engage a select portion of a boat seat so that the seat mounting member can be rotated in select radial paths, this intended use limitation does not add patentable subject matter to the claim.

Allowable Subject Matter

6. Claims 6-12 are allowed.
7. Claims 2-5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
8. The following is a statement of reasons for the indication of allowable subject matter: Claims 6 and 10 and the claims depending therefrom are allowed over the art of record taken alone or in combination because each contains the subject matter of claim 2 which is also indicated as containing allowable subject matter.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Steffens is cited to show the swivel mount for a downrigger. Kammeraad is cited to show frame 62 and support post 20. Brooks is cited to show the rig for mounting fishing rods with a support post for mounting in bracket 30 which can also be used to mount a seat.
